

HONESTY ENGINEERING

GOVT. APPROVED 1ST CLASS CONTRACTOR
& **BEPZA** ENLISTED COMPANY.

COMPANY PROFILE

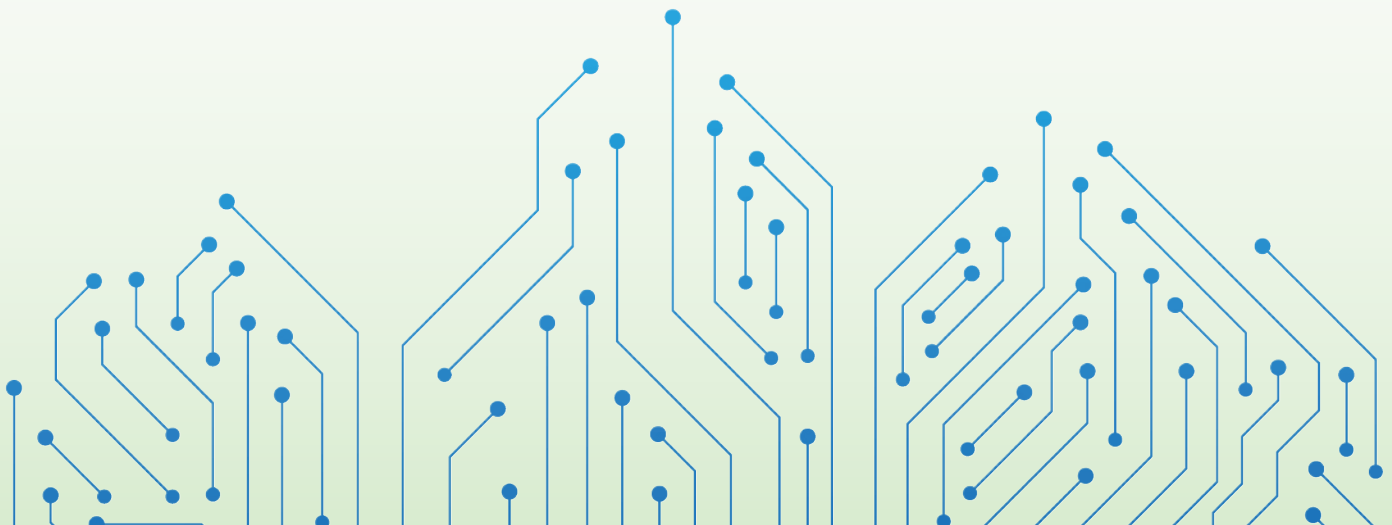

We Do

TURNKEY PROJECTS

ONE

POINT

SOLUTION

Greeting *from* C.E.O.

At **Honesty Engineering**, we take pride in delivering consistent, high quality services at competitive costs. Our success comes from moving beyond traditional construction and renovation management by focusing on the quality and expertise of each supervisor rather than layers of oversight.

We have developed a unique monitoring system where our team works closely with clients to ensure every project runs efficiently, effectively, and professionally.

Employee selection, training, and regular evaluation are handled with great care to meet client expectations. Every team member is personally interviewed, reference-checked, and trained through hands-on practice and clear instructions to ensure confident and accurate performance.

With our strong management approach and years of experience, we maintain the right balance between labor, cost, and quality while quickly adapting to our clients' changing needs.

Thank you for trusting **Honesty Engineering**. We remain committed to integrity, excellence, and lasting partnerships.

HONESTY ENGINEERING

About Company

Honesty Engineering Consultancy is a multidisciplinary consultancy firm established in 2018. It is a well-known international engineering consultancy based in Bangladesh. The firm provides comprehensive services in planning, design, engineering, and project management across a wide range of sectors, including electrical safety, fire safety, building safety, sustainable development, automation, and architectural and construction solutions.

With the in-depth knowledge of our engineers and strong international expertise, we have delivered landmark projects that are completed on time and within budget.

Honesty Engineering Consultancy also specializes in energy-saving consultancy, fire safety assessment, building safety assessment, electrical safety consultancy, and equipment supply.

OUR MISSION

Our mission is to be a leading provider of strategies and services that deliver long term commercial benefits, aligned with our clients' key business requirements. We aim to develop solutions that are economical, efficient, durable, and flexible enabling organizations to respond swiftly to evolving market dynamics and customer needs.

OUR VISION

Our vision is to continually improve in every sector we operate, contributing to environmental, social, and economic progress and creating a better tomorrow. We focus on environmental stewardship, initiatives that benefit society, saving lives, protecting property, and building shareholder value. Our commitment is to establish **Honesty Engineering Consultancy** as a truly sustainable and responsible organization.
